CYPRUS: ISLAND IN THE STORM

A Film Project based on the life of Dafnis Panagides (1929-2019)

Join us to learn about a film project based on the life of Dafnis Panagides – a man engulfed in the violence of the years 1955-1974 in Cyprus, who moved on to become a voice for reconciliation and peace.

The Director will be Costas Ferris, a prolific internationally renowned film Director who also directed the classic movie "Rembetiko". This Film Project has been spearheaded by Stahis Panagides, retired official of the World Bank, and other American and international organizations, to honor the legacy of his brother Dafnis.

In this pre-production phase, the presenters will discuss the evolution of Dafnis' thinking and actions as political prisoner, parliamentarian, pacifist-Christian, and environmentalist, and will show how his patriotism shifted from a narrow, fanatic Greekness to an appreciation of the universality of Hellenic culture.
